Thank you for the invoice and a huge thank you to all the boys that have worked on Cecienne, it has been a pleasure working with you and I have been very impressed with the service and high standards Precision Marine has offered over the last year. It has been great to know Victor, Tony and Rich and a pleasure having them onboard, with Precision Marine involved with many projects onboard Cecienne it has turned the boat around and I could not have done it without you all.

I will miss working with you and I wish you all the best this season and in the future and I hope we can work together again.

All the best and thank you once again

Victor fixed the problem promptly and efficiently. Please let me say how impressed I am by the quality of your service and how delighted I am to have water again!

I write with good news about the fault codes on the Port generator. Since Palma the generator has been online and the faults haven't shown again. I'd like to thank you for sorting this out and also for sending Toni down on Saturday morning to fix the injector line fuel spill off leakage. He is a real asset to your company with a great attitude and to his work and life and general, thank you!

Thanks you in advance, and thank you once again for all or you help over how hectic month in Palma, you were great and the horn sounds fantastic!!

A highlight of bringing this yacht out of Italy and to Palma has been the strong and successful relationships we have formed with companies like Precision. Your team does good work and works well with the other companies we have onboard.
